2007 - 91 Points, Wine Enthusiast

**WINEMAKER'S NOTES** *You've heard about Washington Merlot right? This wine is no exception my friends. The BFM stands up to its reputation of being the biggest merlot based blend coming out of Washington today. We produce this wine for our wine club commonly known as the Stained Tooth Society. The STS members suck up about half of the total production with the remainder being allocated to our distributor network. Get on board and score some BFM!*
