WASHINGTON WINE INDUSTRY
Wine Spectator

DUSTED VALLEY was founded on the notion that when family works together the American Dream can turn into a living reality. In 2003, these Wisconsin natives took a leap of faith and started a new adventure in the Walla Walla Valley. Today, under the Dusted Valley and Boomtown labels, the family crafts honest wines with a sense of place.

DUSTED VALLEY and BOOMTOWN by Dusted Valley – Celebrating 15 Years of family grown, world-class wines from the Walla Walla Valley

*Dusted Valley now sustainably grows **60 acres of Estate vineyards** in the Walla Walla Valley.*

While we've grown since our beginnings in 2003, Dusted Valley remains a small winery connected to our family's founding roots.

- *Dusted Valley's total production is 5,000 cases.*
- *Boomtown's total production is only 20,000 cases. Roughly, only 6,000 of those cases are sold in Washington.*

*Dusted Valley and Boomtown wines have a strong history of quality, garnering **180 scores of 90 points or better** in the past 15 years from major wine publications!*

*In 2015, the team brought our state-of-the-art, modern winemaking facility online. The focus of the construction was **energy efficiency and resource conservation**.*

Also in 2015, we launched a national agreement with Dreyfus Ashby & Co. to represent our family's wines in distribution nationwide. Effectively, this positions our brands nationally with key distributors!

We will continue to invest in our wine, people and customer experience to realize our founders' visions of creating extraordinary wines in the phenomenal winegrowing region of the Pacific Northwest.
